

I attended the Danbury opening and have to say the finished project has exceeded my expectations, during both day and night visits. It has an upscale, sophisticated feel that has a timeless, class quality.

The topiaries are awesome, both food court and main mall. When I saw the "birds" I breathed a sigh of relief that you guys got it and they were beautiful. Please thank all of your team. This was a project with many details and I appreciate your effort and contribution in working with all of us at 505.

Regards,
Lynn Williams, ASID
