

**January 17, 2007**

**To Whom It May Concern:**

***In 1996, I had the pleasure of working with the folks from Ambius in the development and construction of our Tropical American Rainforest Exhibit. We worked closely in the procurement of plants for the project and throughout the installation process. Their professionalism and dedication to both doing a quality job and keeping me informed of their operations was truly appreciated. The installation was carefully orchestrated and delivered on time and within budget. My contacts were Denise Eichmann and Mark Hawry.***

***This year will mark the 10<sup>th</sup> anniversary of the opening of our 13,000 square foot rainforest exhibit and the quality of the workmanship that went into its creation shines as brightly today, if not more, as when it first opened. I have utilized my connection with these people over the years either for items related directly to their work here or for advice on other situations.***

***I highly recommended this company for its work in interiorscape design, installation and maintenance. If you would like to speak with me in more detail feel free to contact me.***

***Bright moments,***

***Jay H. Ross, Horticulture Curator  
Tulsa Zoo and Living Museum***
