

To whom it may concern;

I am pleased to share my experience with services provided by Ambius at our property. We are an upscale hotel & spa and have hundreds of potted plants at our facility, both indoors and outdoors. We recently engaged Ambius to take loving care of our plants and have found them to be most attentive to the plants and to our needs as well.

They communicate often, respond to any special needs quickly, and keep their promises. Our facility has greatly benefitted from our relationship with Ambius and their fine staff. I recommend them with no hesitations.

Sincerely,

Tibor Jozsa
Director of Engineering
